I believe that hard work is always been the foundation and building block of my life. In my study life the same thing has been the basis of my success and it still remains so. My school life was my first step towards building and strengthening this belief. After that, I pursued the Intermediate from the Board of Intermediate Education,Andhra Pradesh .

In my college from day one, I have actively participated in all the college activities. As I played an active role in giving seminars

During my undergraduate education, my hard work and determination lead me towards being a successful student which further fortified my beliefs and helped me towards gaining a great cognition of self management. During this period I developed a good skill of interaction and great technical knowledge required in the field of work that I am right now in.

My Graduate experience and my professor guidance has made me to study higher education i.e., MBA at London College Of Accountancy.

So, I have decided to study in LCA, UK and I am very much exited to do my MBA in your university. As I came to know about your university from my friends who have studied in your university. I have met one of your deligate during UK fair admissions in Hyderabad. I felt very happy and I came to know many things about your university regarding the support to the students, good guidance by the faculty members and facilities given to the students.

I am very much pleased to study at your university .As your university has good space for research it would be helpful to me to have vast exposure to research techniques and helps me to gain good knowledge in the field to fulfill my dream.
